

Infrared Sensor

Parameter list

VCC	External connection for 5 v
GND	External connection for GND
OUT	Digital value output port
NC	Empty pin
PCB size	50mm*20mm
Connector type	5264
PWR	Power indicator
LED1	Light up when the brightness less than the threshold value

When the distance between the object and module is greater than the threshold value, output high level (1); when the distance is less than the

threshold value (adjustable threshold), output low level (0)
